

Swiss Army Bar

A bar that can be used free-standing or placed against a wall. When in use, a motorised recycled teak frame featuring customisable artwork rises up at the touch of a button to screen off the counter. For busier occasions, a second counter concealed under the main one can be swung out to make this an L shaped island bar.

Storage for bottles and glasses are in deep pull-outs, with a slimmer drawer for accessories, and space for a bar fridge/ wine cooler.

Materials

recycled teak | birch plywood | clear + fluted glass | marbled cork sheet | motor | led profile lights | mild steel | artwork not included
